## Use of third-party web based educational services

Dear Parents and Carers,

The use of digital technology is fundamental in assisting teaching and learning in all areas of the school curriculum. Teachers make decisions designed to assist students in their learning. Sometimes it is beneficial for children to utilise services provided by third party web-based providers. Types of services provided by these service providers include collaborative tools, online educational games, and programs for tracking student assessment data.

Our school wishes to register with a number of web-based service providers that require some personal information about your child. We are required under *the Information Privacy Act 2014* to seek your written permission after notifying you about the provider's privacy terms and conditions. Please read the information below carefully and if you agree to the service providers conditions and give permission for your child to access this service, please return the signed form to the front office. If you do not consent to supply us with this information your child will not use these sites.

If you have any questions, please don't hesitate to contact the school by phone on 6142 0345.

**Please read the privacy agreements and indicate your preferences below.**

Provider Details and Information	Consent Provisions
<b>Name of Provider:</b> PicCollage App <b>Type of Service:</b> PicCollage is a creativity app that allows students and educators to easily organise visual images and text on a virtual canvas.
